

## JUST IN TIME

March 28, 2011 we had a very bad wind and rain storm. The ceiling over my shower fell into the shower. One of my bedroom ceilings filled with rain water. It looked like it might fall.

I had been paying on my home-owners insurance for 23 years and never made a claim. So I was sure they would cover the damage.

What happened. My insurance sent people out to dry up the rain water and tarp the roof in two places and the hole over the shower.

Two weeks later my insurance company informed me my policy did not cover the damage.

So I told the Lord, "This is a big one." Since I am a low-income senior.

It took my son and friends to help me save enough money. It took 5 months and ten days to get the repairs done inside and out.

The roof was finished at 1:30 p.m. on 09-09-11. It rained the next morning at 3:30 a.m..

Our time is not the Lord's time. He came through just before it was needed.

"Thank you Jesus." Mark 11:24.
